THE VOLPI STORY

A Volpi kitchen is the culmination of using the very latest material technologies, the best in furniture hardware, the latest style trends, and years of experience and expertise within the kitchen industry.

The name Volpi is taken from the Italian word for Foxes. The Fox represents the versatility, strength and beauty of our stunning kitchens while also being synonymous with the county of Leicestershire - the home of Volpi. Equally successful in both urban and rural locations, the Fox thrives with a graceful beauty. Just like your Volpi kitchen.

Craig Cooper - HEAD OF DESIGN

Our team have a wealth of knowledge and experience within the furniture industry. Their passion to be the best at what they do ensures we all combine our strengths with precision and perfection.

THE VOLPI DETAIL

At Volpi Kitchens, we believe it's the smaller things which make a big difference - and a Volpi kitchen is full of these fine details. The choice of drawer box; the pre-lit open cabinets; the smoked glass shelves; the rear-inset handles; the beautiful corner solutions....the list goes on. It's all in the Volpi detail.

Internal space is a very important feature that requires the same level of attention to detail as the external design elements.

//17

Designed and manufactured in Italy, the **MATERIA** 371 pull-out blind corner shelving system is designed to create 'ease of access' and it is sculptured to maximise the use of space in the corner of your beautiful Volpi kitchen.

The Volpi handle rail is an understated design feature. Not only is it functional, allowing ease of access to your cupboard space, but it is also a perfect design element which creates a stunning contrast between your worktop and door fascias.

Our discreet rear-inset handle adds a refined detail to our modern kitchens.

The stunning slim square D handle in pewter is one of many handle designs we have carefully selected for Volpi kitchens.

The use of natural stone and concrete finishes combined with the gentle warming of textured woodgrains or ultra matt finishes will help create a stunning, modern kitchen full of character and warmth.

Choose between our stunning soft-touch cutlery trays with Basalt Grey anti-slip matting, or our ultra-modern carbon effect cutlery trays.

Blum **LEGRABOX** space tower pull-out drawer systems with soft-close.

Feature shelving cabinets complete with pre-fitted ambient lighting, smoked glass shelving and gallery rails.

Capitalise on storage space with striking tall-larder pantry cabinets. A perfect balance of form and function.

We only wanted to use the best drawer box system - that's why we chose Blum **LEGRABOX** drawers and 'push to open' on all our drawer base units.
